We show people what we can do

Dear Readers,

"If we do something, we do it right." As judged by external assessors, that is exactly what we did in the repeat audit carried out in May of this year. The overall rating we received indicated that we did it right. Our integrated management system complies with the requirements of the following international standards:

Quality Management ISO 9001: 2000
Continual improvement

Environmental Management ISO 14001:1996
Evidence of sustainable development

Supplementary requirements of SQS 9004 :2002
Documentation of process efficiency and effectiveness
Given an overall rating in 2005 of 4.2
(out of a top rating of 5; total rating in 2002: 3.4)

Occupational Health and Safety Assessment OHSAS 18001:1999
Occupational safety and health promotion for stakeholders

Forest Stewardship Council FSC COC
Hickory taken exclusively from forests under progressive management
Certificate-No. SQS-COC-100058

The diversity of requirements relevant to us under international standards reflects the sum total of market requirements. That is why the repeat audit demonstrates once again our capabilities of being a reliable partner and producer of top quality tools. We assure you that we will continue in future to make full use of our potential for innovative performance and sustainable development in your best interests.

Check out our "PrecisionBits" and see for yourself!
You will be impressed by their versatile uses: The new colour coating is applied in a process based on nanotechnology and is completely compatible with the environment. Read more about the advantages of the new PB PrecisionBits ...

PB PrecisionBits®: PB goes color

Starting in autumn 2005 we will deliver all bits with a new colour coating applied in a nanotech process.

As a result, our products will differ in future from competing ones not only in quality but in look as well.

By using the latest product technologies, we can supply the innovative coloured bits for the same price as their previous PB Bits!

Introductory discount of 10 %: 

In addition, we will grant you a discount of 10% on all orders received from October 2005 to the end of the year!

The introductory discount applies to all individual C6 and E6 shape bits, to the 10-bit multi-pack boxes and to the large packages with 100 bits.

This special also extends to the PB BitBlock C6-971, the PB BitBand E6-941 and the popular PB Insider 6460.

New to our range is the long version of the Insider designated as PB No. 6461. The blade on this model is 110 mm. You naturally receive a 10 % introductory discount on this product as well.

New!
PB 6461

The special quality features of the PB screwdrivers apply to the PB PrecisionBits® as well:

- above-average hardness for a long service life
- exceptional elasticity and strength for added safety and high torques
- ultra-precise dimensions for a reliable fit in the screws
- superb regularity in production is something PB quality always guarantees you, for each and every tool

Further quality traits in brief:

Nanotech coating

- colour coding for each type of screw
- easy to pick out the right tool to use
- colour coding like that of the PB SwissGrip screwdrivers
- attractive anti-corrosion properties

Ultra-precision

- reliable fit of bit in screw
- no slippage out of screw (no more cam-out effect)
- long service life

Unchanged prices

- thanks to our use of the latest production technology, we can supply the colour-coded PrecisionBits® to you for the same price as the previous PB bits

The PB universal bit is perfect for every situation:

- PB Bits are tough, hard and suitable for all applications
- the need for using different types of bits is eliminated
- makes for easier handling and more logical storage
- a special alloy steel delivers superb elasticity and toughness coupled with a high degree of hardness

Swiss made

- developed and produced from start to finish at PB Baumann

Years of experience in production and high flexibility

- special bits can be supplied on short notice
